Who should attend: Entrepreneurs – Students - Community Leaders

## “Extreme” Agenda - - What attendees will experience:

### Inspirational Keynote

Provided by one of the country’s top young entrepreneurs, this keynote will inspire attendees to take action on their dreams. The content of the keynote will include an inspiring and relatable story where the speaker shares the ups and downs of his or her journey and how exactly he or she became so successful, as well as lessons learned and take-aways that everyone can apply to their life.

### Dream Action Workshop

This explosive program inspires students to leverage the power of youth and empowers them to begin their journey by asking themselves fundamental life questions they may have never asked themselves before. It is an interactive program where students identify and develop their core aspirations and share them with each other. By the end of the program, students will have a specific action plan that will take them down the road of passion, purpose, and prosperity!

### Extreme Entrepreneur Panel

The Extreme Entrepreneurship Panel is an informal event where attendees connect with successful entrepreneurs on a personal level. Attendees are exposed to different view points on how to achieve success before graduating and learn about the people behind the stories.
